

Winkelart im Dreieck:

$$c^2 = a^2 + b^2$$

$$\gamma = 90^\circ \rightarrow \text{rechtwinklig}$$

stumpfwinkliges Dreieck

$$c^2 > a^2 + b^2$$

$$\gamma > 90^\circ \rightarrow \text{stumpfwinklig}$$

$$c^2 < a^2 + b^2 \rightarrow$$

$$\gamma < 90^\circ \rightarrow \text{spitzwinklig}$$
